## Reading Comprehension

### Part I: Annotate the paragraphs (5 points)

Popcorn is one of the oldest American snack foods. By the time European explorers arrived here in the 1400s, Native Americans were already growing about 700 types of corn. They used popcorn for both food and decoration. Some tribes used it in their headdresses and necklaces.

These early popcorn lovers couldn't plug in the electric popper or zap the popcorn in the microwave. Instead, they popped the kernels in clay pots over an open fire. Some kinds of popcorn were even popped right on the cob.

English colonists got a taste of popcorn at the first Thanksgiving feast in 1621. A Native American named Quadequina brought a deerskin bag filled with popcorn to the dinner. It was a hit!
