

## Living Factors in Deserts Pg. 208-211

### Across

3. This desert is in the American southwest.
4. These desert animals come out at night.
8. Amphibian do this in water.
9. These can lie in the soil for years until it rains.
10. Instead of leaves cacti have this.

### Down

1. Animals dig these as a safe place.
2. Tortoises store water here.
5. These plants store water in their stems.
6. Plants grow far apart and these spread out.
7. Desert areas with water are full of this.
