

## Light Interactions pg. 102-107

### Across

- 6. This is the bending of light.
- 7. This can show what is above you.
- 8. Light travels in these lines.
- 10. Light comes from here.

### Down

- 1. This is light bouncing off a surface.
- 2. Light changes this when it reflects.
- 3. When you see something in hot air, it is this.
- 4. If this is smooth it can reflect light.
- 5. Light moves slowly through things that are this.
- 9. Light travels in these.
