

Waves pg. 88-92

Across

3. Sound travels through a medium in these.
6. Moving air has a lot of this energy.
7. In the ocean, water is the this.
9. The highest part of a wave.
10. An ocean wave is a repeating one of these.
11. The distance between two peaks is this.
12. A sound pulse is a series of these.
13. The lowest part of a wave.

Down

1. The up and down movement of a wave.
2. In sound, amplitude equals this.
4. A wave transfers its energy to the shore when it does this.
5. This is a kind of oscillation for sound.
8. The moving wave does this to energy.
9. A sound's wavelength determines this.
