

What is an Ecosystem Pg. 234-236

Across

- 2. Plants get their energy from here.
- 5. These are in a forest ecosystem.
- 8. This provides matter and energy.
- 11. Ecologists study how organisms and nonliving things do this.
- 12. A closed ecosystem.
- 13. Plants make this through photosynthesis.
- 14. Another word for matter is this.

Down

- 1. Organisms interact with this environment.
- 3. An ecosystem with fish, snails and plants.
- 4. Ecologists study these.
- 6. Energy for most ecosystems comes from here.
- 7. An ecosystem is a community of these.
- 9. Organisms use energy to do this.
- 10. This is a nonliving factor in an environment.
