Riddle-Me-Worksheets

Fourth Grade: Pack 3

DATE: _____

Then record the tangents at the red rectangles.

triangle is a right triangle by circling Yes or No:

① Yes
② No

③  Yes
④ No

⑤  Yes
⑥ No

⑦ Yes
⑧ No

Count the rectangles in each row:

Row 1:  5 2

Row 2:  7 9

Row 3:  6

Row 4:  4 1

Row 5:  8 8

NAME: _____

How many tickles does it take to make an octopus laugh?

DIRECTIONS

Solve the following problems and match your answers to the answers in the **Legend**. Then record the corresponding letter of the correct answer in the rectangles at the bottom to answer the riddle.

Note: The problem numbers match the numbered rectangles.

LEGEND

E \$315.97	H \$17.60	I \$4.01	K \$1.40	G \$8.70
C \$1.30	T \$4.03	M \$23.70	L \$1.00	

Use Table A to answer problems 1–4 below:

- Jill bought a brownie and cookie with a \$5 bill. How much change will she receive?
- Jack bought a cupcake with a \$20 bill. How much change will he receive?
- Ruby bought a cupcake for herself and 3 muffins for her siblings. What will the total be?
- If Ruby pays with a \$10 bill, how much change will she receive?

Use Table B to answer problems 5–8 below:

- Jim bought a new 42" TV and paid with 2 \$100 bills and a \$20 bill. What will his change be?
- Maxwell bought a new smart phone with 2 \$100 bills. What will his change be?
- Joseph paid with 3 \$100 bills and a \$20 bill. What will his change be?
- Joseph bought a camera and a 42" TV. What was his total?

Table A

Item	Price w/ Tax
brownie	\$1.85
muffin	\$2.10
cookie	\$1.75
cupcake	\$2.40

Table B

Item	Price w/ Tax
42" TV	\$215.99
Camera	\$99.98
Smart Phone	\$199
-	-

MULTI-SKILL GRADE 4 MATH – PACK 3

The logo for CLASS CROWN features the words "CLASS" in yellow and "CROWN" in white, stacked vertically. To the right of the text is a stylized crown graphic composed of several triangles in various colors: blue, orange, yellow, and pink. Below the main title, the tagline "WHERE TEACHERS RULE" is written in a smaller, white, sans-serif font.

NOTE TO TEACHERS:

As students complete these worksheets, they may be able to solve the riddle before finishing the problems and thus may be able to get the correct answer without completing the work. To avoid this, we highly recommend that you require students to complete all problems and show all their work to prove mastery and receive full credit for the assignment.

Why do bears always have sticky fur?

Solve the following problems in the sections below. Then record the corresponding letter of the correct answer in the rectangles at the bottom to answer the riddle.

Note: The problem numbers match the numbered rectangles.

For each problem determine which answer best represents the volume:

Water in a bathtub

- A** 5 cups
- M** 80 gallons
- J** 10 pints
- C** 14 quarts

Soda in a can

- U** Less than 2 cups
- B** 5 pints
- A** 1 gallon
- L** 2 quarts

A ketchup packet

- C** 2 gallons
- E** 4 pints
- N** Less than a cup
- F** 4 quarts

Water in a large vase

- S** Less than a cup
- T** 1 pint
- N** 4 quarts
- Y** 2 gallons

⑤ Glass of chocolate milk

- P** 1 gallon
- S** 1 pint
- L** 1 quart

⑥ Ink in a pen

- C** Less than a cup
- V** Close to a gallon
- B** More than a pint

⑦ Water in a pool

- I** Less than a cup
- V** Several quarts
- A** Many gallons

⑧ A jar of jam

- B** About a pint
- S** About a cup
- E** About a gallon

⑨ A bottle of cold medicine

- E** A cup
- O** A gallon
- P** A quart

⑩ Water used to water a house plant

- M** 2 gallons
- L** 2 quarts
- Y** 2 cups

⑪ Lemonade in a pitcher

- M** About half a cup
- H** About half a gallon
- K** About half a pint

⑫ Small carton of milk from cafeteria

- O** About half a pint
- U** About half a gallon
- A** About half a quart

Where do killer whales like to listen to music?

Solve the following problems in the sections below. Then record the corresponding letter of the correct answer in the rectangles at the bottom to answer the riddle.

Note: The problem numbers match the numbered rectangles.

For each problem below, determine which choice is the best answer:

① The length of a sofa

G 7 miles **C** 7 feet
L 7 inches

② The length of an envelope

R 9 inches **B** 9 yards
D 9 feet

③ The height of a mountain

H 3 miles **S** 3 inches
O 3 yards

④ The length of a crayon

T 4 yards **M** 4 feet
S 4 inches

⑤ The width of a chair

D 18 miles **R** 18 inches
F 18 feet

⑥ The height of an orange

A 5 inches **T** 5 yards
S 5 feet

⑦ The height at which an airplane flies

Y 5 feet **L** 5 yards
E 5 miles

⑧ The length of a baby

A 19 feet **O** 19 inches
B 19 yards

⑨ The height of an action figure

T 7 inches **V** 7 feet
B 7 miles

⑩ The distance from a student's house to the neighborhood school

E 2 inches **S** 2 yards
A 2 miles

⑪ The height of a professional basketball player

S 7 inches **T** 7 feet
W 7 miles

What did the teddy bear say when offered another piece of pie?

Solve the following problems in the sections below. Then record the corresponding letter of the correct answer in the rectangles at the bottom to answer the riddle.

Note: The problem numbers match the numbered rectangles.

Determine which choice represents the best length or height of the item:

① A cup of coffee

- E** 12 millimeters
- A** 12 centimeters
- R** 12 meters

② A ladder

- M** 3 meters
- F** 3 centimeters
- D** 3 millimeters

③ A 2-story home

- R** 9 centimeters
- D** 9 meters
- L** 9 kilometers

④ A toothpick

- H** 25 meters
- B** 25 centimeters
- N** 25 millimeters

⑤ A fingernail

- U** 10 millimeters
- E** 10 centimeters
- R** 10 kilometers

⑥ A shoe

- M** 24 millimeters
- H** 24 centimeters
- P** 24 meters

⑦ A refrigerator

- K** 170 centimeters
- B** 170 meters
- S** 170 kilometers

⑧ A palm tree

- L** 15 centimeters
- E** 15 meters
- R** 15 kilometers

⑨ A pencil

- A** 14 kilometers
- V** 14 meters
- O** 14 centimeters

⑩ A grizzly bear

- R** 3 centimeters
- N** 3 meters
- E** 3 kilometers

⑪ A mountain

- I** 4 kilometers
- A** 4 meters

Use **Table A** to answer problems 1–4 below:

① Jill bought a brownie and cookie with a \$5 bill. How much change will she receive?

② Jack bought a cupcake with a \$20 bill. How much change will he receive?

③ Ruby bought a cupcake for herself and 3 muffins for her siblings. What will the total be?

④ If Ruby pays with a \$10 bill, how much change will she receive?

Item	Price w/ Tax
brownie	\$1.85
muffin	\$2.10
cookie	\$1.75
cupcake	\$2.40

Use **Table B** to answer problems 5–8 below:

⑤ Jim bought a new 42" TV and paid with 2 \$100 bills and a \$20 bill. What will his change be?

⑥ Maxwell bought a new smart phone with 2 \$100 bills. What will his change be?

⑦ Joseph bought a camera and a 42" TV. What was his total?

⑧ Joseph paid with 3 \$100 bills and a \$20 bill. What will his change be?

Item	Price w/ Tax
42" TV	\$215.99
Camera	\$99.98
Smart Phone	\$199

Why do bears always have sticky fur?

DIRECTIONS
Solve the following problems in the sections below. Then record the corresponding letter of the correct answer in the rectangles at the bottom to answer the riddle.
Note: The problem numbers match the numbered rectangles.

For each problem determine which answer best represents the volume:

① Water in a bathtub
A 5 cups
M 80 gallons
J 10 pints
C 14 quarts

② Soda in a can
Less than 2 cups
B 5 pints
A 1 gallon
L 2 quarts

③ A ketchup packet
C 2 gallons
E 4 pints
N Less than a cup
F 4 quarts

④ Water in a large vase
Less than a cup
T 1 pint
N 4 quarts
Y 2 gallons

⑤ Glass of chocolate milk

P 1 gallon
L 1 quart
S 1 pint

⑥ Ink in a pen

C Less than a cup
V Close to a gallon
B More than a pint

⑦ Water in a pool

I Less than a cup
A Many gallons
V Several quarts

⑧ A jar of jam

B About a pint
S About a cup
E About a gallon

⑨ A bottle of cold medicine

E A cup
P A quart
G A gallon

⑩ Water used to water a house plant

M 2 gallons
Y 2 cups
L 2 quarts

⑪ Lemonade in a pitcher

M About half a cup
K About half a pint
H About half a gallon

⑫ Small carton of milk from cafeteria

O About half a pint
A About half a quart
U About half a gallon

Where do killer whales like to listen to music?

DIRECTIONS
Solve the following problems in the sections below. Then record the corresponding letter of the correct answer in the rectangles at the bottom to answer the riddle.
Note: The problem numbers match the numbered rectangles.

For each problem below, determine which choice is the best answer:

① The length of a sofa

G 7 miles
L 7 inches
C 7 feet

③ The height of a mountain

H 3 miles
O 3 yards
S 3 inches

⑤ The width of a chair

D 18 miles
F 18 feet
R 18 inches

⑦ The height at which an airplane flies

Y 5 feet
E 5 miles
L 5 yards

⑨ The height of an action figure

T 7 inches
B 7 miles
V 7 feet

⑪ The height of a professional basketball player

S 7 inches
W 7 miles
T 7 feet

② The length of an envelope

R 9 inches
D 9 feet
B 9 yards

④ The length of a crayon

T 4 yards
S 4 inches
M 4 feet

⑥ The height of an orange

A 5 inches
S 5 feet
T 5 yards

⑧ The length of a baby

A 19 feet
B 19 yards
O 19 inches

⑩ The distance from a student's house to the neighborhood school

E 2 inches
A 2 miles
S 2 yards

How many tickles does it take to make an octopus laugh?

Solve the following problems and match your answers to the answers in the **Legend**. Then record the corresponding letter of the correct answer in the rectangles at the bottom to answer the riddle.
Note: The problem numbers match the numbered rectangles.

E \$315.97 N \$17.60 I \$4.01 K \$1.40 C \$8.70
S \$1.30 T \$4.03 M \$23.70 L \$1.00

Use Table A to answer problems 1–4 below:

① Jill bought a brownie and cookie with a \$5 bill. How much change will she receive?

\$140 K

② Jack bought a cupcake with a \$20 bill. How much change will he receive?

\$17.60 N

③ Ruby bought a cupcake for herself and 3 muffins for her siblings. What will the total be?

\$8.70 C

④ If Ruby pays with a \$10 bill, how much change will she receive?

\$1.30 S

Use Table B to answer problems 5–8 below:

⑤ Jim bought a new 42" TV and paid with 2 \$100 bills and a \$20 bill. What will his change be?

\$4.01 I

⑥ Maxwell bought a new smart phone with 2 \$100 bills. What will his change be?

\$1 L

⑦ Joseph bought a camera and a 42" TV. What was his total?

\$315.97 E

⑧ Joseph paid with 3 \$100 bills and a \$20 bill. What will his change be?

\$4.03 T

Table A

Item	Price w/ Tax
brownie	\$1.85
muffin	\$2.10
cookie	\$1.75
cupcake	\$2.40

What is in a ghost's nose?

Solve the following problems and match your answers to the answers in the **Legend**. Then record the corresponding letter of the correct answer in the rectangles at the bottom to answer the riddle.

Note: The problem numbers match the numbered rectangles.

T 120**S** 18**B** 96**E** 54**G** 8**R** 29**O** 4

LEGEND

① Adele is installing a fence around her rectangular garden. If the garden is 12 feet wide by 15 feet long, how many feet of fencing does she need?

54 E ft

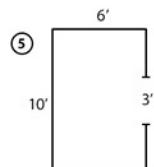

② Joseph's favorite blanket is 3 feet wide. Its length is twice its width. What is the blanket's perimeter?

18 S ft

③ Bella is sewing a piece of ribbon around the perimeter of a square piece of cloth. One side measures two 2 ft. How much ribbon does she need?

8 G ft

④ Eli is installing baseboard along the perimeter of 2 bedrooms, each 12 ft x 12 ft. How much baseboard does he need?

96 B ft

Graham's garden has a fence with a 3 ft. opening, as shown in the picture. If he wants to replace the fence, how much fencing does he need to buy?

29 R ft

⑥ Jenn is gluing ribbon around the perimeter of a decorative box. The box is 14 inches long and 9 inches wide. She has 50 inches of ribbon. How much will be left when she is done?

40 ft
B **O** **O** - **G** **E** **R** **S**

Why did the weight lifter only work out on Saturday and Sunday?

Solve the following problems and match your answers to the answers in the **Legend**. Then record the corresponding letter of the correct answer in the rectangles at the bottom to answer the riddle.

Note: The problem numbers match the numbered rectangles.

D 11**S** 6**T** 1**R** 4**A** 9**K** 8**E** 3**Y** 15**N** 12**H** 7**W** 5

LEGEND

Use Line Plot A to answer problems 1–5:

① What is the shoe size with the most number of students?

6 S

② Which shoe size do none of the students wear?

7 H

③ How many students wear sizes with a half size?

5 W

④ How many students wear a size 6 or larger?

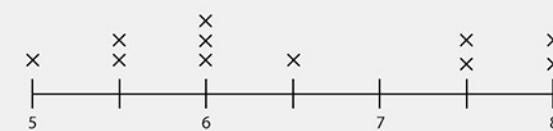

8 K

⑤ How many total students are represented?

11 D

Line Plot A

Shoe sizes of students in a class

Use Line Plot B to answer problems 6–10:

⑥ How many total students are represented?

15 Y

⑦ How many students live $3\frac{1}{4}$ miles from school?

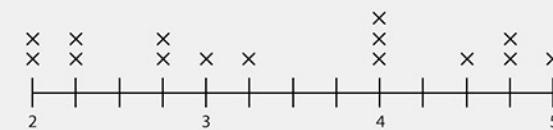

1 T

⑧ Which number of miles has the most students living that far away?

4 R

Line Plot B

Distance, in miles, that students live from school

⑨ How many students live 3 or more miles away?

9 A

⑩ How many students live $4\frac{3}{4}$ miles or more away?

3 E

What's a banker's favorite gymnastic event?

Solve the following problems and match your answers to the answers in the **Legend**. Then record the corresponding letter of the correct answer in the rectangles at the bottom to answer the riddle.

Note: The problem numbers match the numbered rectangles.

T 1 **V** $1\frac{1}{8}$ **U** $\frac{7}{8}$

A 4 **L** $1\frac{3}{4}$ **M** 3

LEGEND

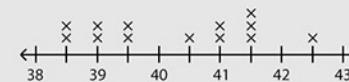

Use the line plots to answer each question:

① The line plot shows how many miles Josie walked each day. What is the difference in distance between the most and fewest miles she walked in a day?

1 $3\frac{1}{4}$ B

② The line plot shows the height (in inches) of students in a kindergarten class. What is the difference (in inches) between the tallest student(s) and the shortest student(s) in class?

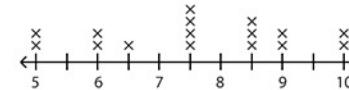

4 A

③ The line plot shows the shoe sizes of several athletes.

What is the difference in sizes between the size with the most number of athletes and the size with the least number of athletes?

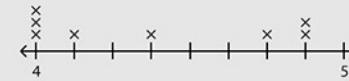

1 T

④ The line plot shows the height (in inches) of different phones.

What is the difference in height between the tallest and shortest phone?

$7\frac{1}{8}$ U

⑤ The line plot shows the distances students ran in 10 minutes.

What is the difference in distance between the most and least miles run by the students?

$1\frac{1}{8}$ V

What do elves learn at school?

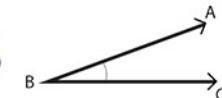

Solve the following problems in the sections below. Then record the corresponding letter of the correct answer in the rectangles at the bottom to answer the riddle.

Note: The problem numbers match the numbered rectangles.

① Which choice best represents $\triangle ABC$?

- C 75°
- R 145°
- B 20°
- A 49°

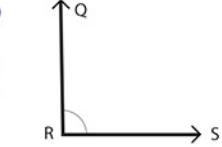

② Which choice best represents $\triangle JKL$?

- L 80°
- H 133°
- C 60°
- M 175°

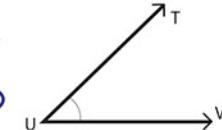

③ Which choice best represents $\triangle QRS$?

- L 91°
- D 72°
- V 133°
- E 789°

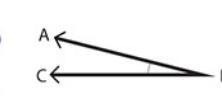

④ Which choice best represents $\triangle TUV$?

- F 63°
- N 111°
- S 92°
- A 44°

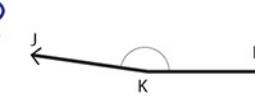

⑤ Which choice best represents $\triangle ABC$?

- P 39°
- F 14°
- R 73°
- O 102°

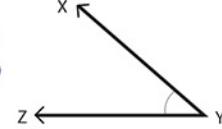

⑥ Which choice best represents $\triangle JKL$?

- I 172°
- E 130°
- G 50°
- W 10°

⑦ Which choice best represents $\triangle XYZ$?

- X 11°

Why was the baby raspberry crying?

DIRECTIONS
Solve the following problems in the sections below. Then record the corresponding letter of the correct answer in the rectangles at the bottom to answer the riddle.

Note: The problem numbers match the numbered rectangles.

Choose the correct answer to describe each angle:

① 125°	L acute	W obtuse	G right	O straight
② 52°	H acute	A obtuse	B right	M straight
③ 90°	C acute	F obtuse	O right	T straight
④ 17°	I acute	A obtuse	T right	S straight
⑤ 2°	R acute	F obtuse	H right	I straight
⑥ 95°	S acute	J obtuse	B right	V straight
⑦ 180°	M acute	T obtuse	Z right	N straight
⑧ 173°	O acute	E obtuse	L right	P straight
⑨ 73°	M acute	B obtuse	K right	I straight
⑩ 39°	D acute	C obtuse	W right	R straight
⑪ 91°	E acute	A obtuse	P right	L straight
